ABOUT US

I'm Parthik Bhilvala, a front-end designer with 2 years of practical experience in creating responsive. I am skilled in designing pixel-perfect interfaces with HTML, CSS, JavaScript, jQuery, Sass, Tailwind CSS, and Bootstrap, but using core knowledge of React.js for making projects future-proof. I live for working with product teams to bring brand narratives to life in clean, accessible designs, and I'm always looking to new UI trends, design systems, and performance optimizations that improve the user experience. Outside the office, you can find me testing design prototypes in Figma, refining Photoshop mockups, and immersing myself in front-end best practices—because a good interface is never done evolving.

SKILLS

- HTML
- CSS
- jQuery
- Sass

PROJECT IN COMPANY

- Only Human

Technologies Used: HTML, SCSS, JavaScript

Description: Designed and developed a fully responsive website for the Only Human, ensuring seamless user experience across all devices, including desktops, tablets, and smartphones.

- R&L Packaging

Technologies Used: HTML, CSS, JavaScript

Description: Designed and developed a fully responsive website for the R&L Packaging, ensuring seamless functionality and visual appeal across all devices.

- Turner Rocket

Technologies Used: HTML, CSS, JavaScript, GSAP

Description: Created a fully responsive website with smooth animations using GSAP, ensuring seamless performance across all devices. Designed a clean, modern interface with HTML and CSS, and added interactivity with JavaScript, delivering a visually appealing and user-friendly experience.

- Byron Medical

Technologies Used: HTML, SCSS, JavaScript

Description: Developed a fully responsive website to showcase BYRON medical products, ensuring optimal user experience across all devices.

- CS2Best.net

Technologies Used: HTML, CSS, JavaScript

Description: Designed and developed a fully responsive gaming website focused on the CS2Best.net platform. Ensured smooth user experience with fast loading times, optimized design for mobile and desktop views, and implemented engaging elements using JavaScript for interactivity. The site provides a seamless interface for gamers to explore news, rankings, and game-related content.

- Adaptive

Technologies Used: HTML, CSS, JavaScript

Description: Created a fully responsive 'Adaptive' website using HTML, CSS, and JavaScript, featuring a hero section, product showcase, and blog. Implemented mobile-friendly navigation and ensured cross-device compatibility with media queries.

- F-Shop

Technologies Used: HTML, CSS, JavaScript
